DETAILED ACTION

Current Status

1. This action is responsive to Applicants' amendment of 3 May 2007.
2. Receipt and entry of Applicants' amendment is acknowledged.
3. Claims 1-5 are pending.
4. The rejection of claims 1-5 under 35 U.S.C. 103 as being unpatentable over US 5,925,794 in view of Hsu et al. for the reasons set forth in the previous Office Action of 11/6/06 is maintained.

Applicants' argument and amendments filed 3 May 2007 have been fully considered but they are not persuasive because the prior art cited teaches applicants' claimed method for producing a 3-methylthiopropenal in a **continuous manner**. Hsu et al. teach method for producing a 3-methylthiopropenal in a continuous process by dividing the reaction product into a product fraction and a circulating fraction, and the circulating fraction is recycled to the gas/liquid contact zone. The prior art technique signifies a **continuous process**. Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to apply the reaction steps taught by Hsu et al. in applicants' claimed process, in order to produce 3-methylthiopropenal. Also, should be noted that the variation of the reagents' concentration as claimed by applicants is not a patentable distinction.

Additionally, merely modifying the process conditions such as temperature and concentration is not a patentable modification absent a showing of criticality. *In re Aller*, 220 F. 2d 454, 105 U. S. P. Q. 233 (C. C. P. A. 1955).

THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
